

Suppliers of all your Requirements, for Violins, Viola's Cello's and Double Bases

Made by
Eastman Strings
 Modern Instruments. Old-fashioned Quality

JPB are now pleased to be stocking the magnificent Eastman range of Instruments. We are concentrating currently on the Master and Master Junior Instruments as these are particularly good value for money, perform really well and have a very good appearance. One of the beauties of Eastman handcrafted and hand varnished instruments is that they are consistently good, unlike some modern instruments. The Eastman Master series models employ the latest advances in the technique of plate tuning, a method that helps makers fine-tune the graduations of the top and back plates to get the best possible sound from each unique piece of wood. Research into old master instruments, texts, and technical experiments, come together in the creation of some of the finest workshop instruments available today. We are also stocking the Heritage Baroque Violin, at an amazingly low price to launch it!
